

NAV Sales Executive

An ISV whose solutions include Dynamics NAV is expanding its sales team by taking on a New Business ERP Sales Executive.

The successful candidate will have detailed knowledge of selling ERP solutions into the SME market. My client has a strong presence in Healthcare and sells software solutions into the NHS and other sectors, so experience in software sales in this vertical is highly desirable. My client is happy to consider candidates with experience in other ERP products such as Oracle, SAP, Baan, etc, as full training on Dynamics NAV will be given.

A Microsoft Gold Partner, our client continues to grow across in a range of industries and they are now recruiting for a Microsoft Dynamics NAV Technical Consultant to join their team.

The successful candidate will work on key accounts and projects in a client-facing role which will involve some travel; therefore excellent written and spoken communication skills are essential.

As a Consultant you will be responsible for analysing requirements, conducting workshops, implementing Dynamics NAV, testing, and support/ training as required

Certifications in Dynamics NAV is an advantage, as would experience of other CRM or accounts packages, such as Sage.
